FEDERAL AGENTS TO SEIZE PLANTS

Breweries Making Illegal Beer Will be Seized

Two Cincinnati Breweries Will Be Sealed

(By Associated Press)

Washington, November 20.—All breweries manufacturing beer containing more than one-half of one percent of alcohol will be seized by the federal government, it was indicated today at the Bureau of Internal Revenue.

Officials of the Bureau said an analysis of beer brewed in a number of places was now being made and that where the product is found to exceed the legal limit in alcoholic content the government would act to enforce the law.

In a statement the Bureau declared that the Hencourt and Jackson breweries at Cincinnati has been ordered seized after supervising agent Stone, who had analyzed samples of the breweries' products, reported that the beer showed an alcoholic content of more than one-half of one percent.

SEAL BREWERIES IN CINCINNATI

The two breweries are the Jackson and Hencourt, both of which have been under guard since Thursday when prohibition agents and internal revenue deputies took samples of beer from all breweries in the city and from more than 100 saloons.

In addition it is reported a number of these saloons will be seized by the federal government agents.

Police See Work of Vendetta In Double Murder

Each Victim Had Thirty Stab Wounds

(By Associated Press)

Youngstown, O., November 20.—County officials today were seeking evidence to establish their theory that a Vendetta plot was responsible for the murder of two Italians, Joe Manguso, and a man thought to be his brother, John, whose mutilated bodies were found by a school boy on a road near here late yesterday.

Each man had been stabbed exactly 30 times. On the bodies of each a circle had been drawn with a knife within which there were numerous stab wounds while the throats of each man had been slashed and gashes covered the heads and faces.

The men's automobile with a bloody window weight on the front seat and bullet marks in the rear was found near the scene.

SENATOR WILL BE DENIED PAPERS

Senator Fall Will Not Be Permitted

To Enter Mexico For The Inauguration

(By Associated Press)

Washington, November 20.—Mexican consular agents on the border, it was said today at the Mexican Embassy, have been directed by Roberto Tesqueira, Mexican confidential agent in the United States, not to vize the passports of Senator Fall of New Mexico for the senator's proposed visit to Mexico to attend the inauguration of President-elect Obregon, on December 1st.

It was denied at the Embassy that Mr. Tesqueira also had ordered the consular agents not to vize the passports of Governor Hobbs of Texas.

It was understood this attitude was taken because of Senator Fall's attitude in urging intervention in Mexico as a member of the congressional committee.

Fourteen Other Families In Building Make Escape

Hundreds of Terror-Stricken Tenants Fled From Building

Clad Only in Night Clothes To Protect Them

Thrilling Rescues Are Made By Firemen

Many Escape Over Roofs Of Adjoining Buildings.

(By Associated Press)

New York, November 20.—Nine persons, constituting every member but one of two entire families, lost their lives early today in a fire which destroyed a five-story apartment house in West 146th street. Fourteen other families escaped or were rescued by firemen.

Originating, authorities say, in a baby carriage on the first floor of the brick structure, the fire swept swiftly upward through open stairways, cutting off escape through the halls.

Nearly a hundred men, women and children clad in nightclothes swarmed to the fire escapes, some making their way to the ground while others huddled terror-stricken on platforms in the chill morning air until carried to safety.

All the dead were found on the fifth and top floors after the flames had been controlled. They were: Raphael Gabbia, his wife, Anna, and their four children, who ranged in years from seven to one and a half; Miss Ad Frank, Mrs. Bertha Reynolds, her sister, and Ruth Reynolds, a girl of sixteen.

Charles Frank, overcome by smoke, fainted over a window sill and was dragged to safety and revived by a man who reached out from an adjoining building and drew him across the narrow open space.

Robert Walker, a neighborhood resident, climbed a fire escape before the arrival of firemen and carried to safety an infant which had been abandoned in its crib by a family living on the second floor.

Other residents of the doomed building scurried to safety over adjoining roofs.

BOLLING MIXED UP IN GRAFT CHARGES

President's Brother-in-Law Is Named in \$40,000 Bribe

Money Split For Ways Claims Witness Before Inquirers.

(By Associated Press)

New York, November 20.—R. W. Bolling, brother-in-law of President Wilson treasurer of the Shipping Board, was named in connection with a \$40,000 bribe alleged to have been paid by a Staten Island ship building corporation to procure unusual favors from the Board, in testimony before the congressional committee investigating shipping board affairs here today.

Tucker E. Sands, former vice president of the Commercial National Bank, Washington, testified it was his "understanding" that \$1800 "loaned Bolling against his note" and of which Bolling already has paid back \$300 was Bolling's share of the "\$40,000 bribe" of the Wallace-Downey Shipbuilding Corporation for unusual shipping board favors.

Sands said the \$40,000, he understood, was to be split four ways between himself, Bolling, Lester Siler, former shipping board secretary, and a man named Kramer.

Sands admitted he had in an interview with Alfred W. McCann, reporter for the New York Globe, made allegations of the alleged bribe which are incorporated in an affidavit, a photostatic copy of which was submitted to the board today, prepared for his signature.

Senator la Fontaine had somewhat startled the Assembly by declaring that the world was not yet ready for disarmament.

"It is necessary to say frankly to the people," he said, "that the time for disarmament has not yet come."

"Before the world could disarm," he added, "entirely different ideas than those that prevailed before the war must be formulated and applied."

He proposed that the armament and armies be comprised in an international force with an international staff "ready to be used in the cause of right in such a case as arose from the present situation of Armenia."

**ONE THOUSAND
ATTEND THE RED
CROSS PAGEANT**

Work of Red Cross In Peace
Forms Inspiration For
Great Spectacle.

Pageant Takes Its Place As
Greatest Ever Given In
This City.

The largest audience ever in the
auditorium of Washington High
School Friday evening saw the pa-
geant "The Red Cross of Peace" when
it was presented by the Fayette County
Red Cross Chapter under the per-
sonal direction of Mrs. Ruth Mougey
Worrell, of Cincinnati, the author.

It was estimated that close to one
thousand people packed the auditori-
um. Long before the time for the
pageant to begin standing rooms only
could be secured and the aisles at the
sides of the room, at the rear, and
even the hall were filled. Scores
were turned away.

Expressing beautiful sentiment and
telling the story of the Red Cross in
a way that found its place in every
heart the pageant unfolded the serv-
ice of the Red Cross in every depart-
ment while the returned soldier, the
part taken with much naturalness by
Maynard Craig, looked on and won-
dered as the scenes were explained by
"The Greatest Mother in the World,"
the part taken with perfect grace by
Mrs. Worrell.

The prelude opened with the ap-
pearance on the scene of Humanity,
Miss Ruth Tanquary in the role, fol-
lowed by character depictions of Clara
Barton, Florence Nightingale, two
Civil War nurses, and three Veterans
of the Civil War.

The Red Cross in War followed
with Mrs. Mable Stearns Farquhar op-
posite Mrs. Worrell in the Red Cross
of War. All the departments of the
Red Cross gathered around and the
familiar scenes of the war period
were recalled as the representatives of
Junior Red Cross, Motor Corps,
Sewing Department, Educational De-
partment, Surgical Department, Canteen
Service, Knitting Department, Home
Service Department, Nursing Serv-
ice Department and the overseas per-
sonnel passed in review.

"The spirit of the American people
was dramatically typified when Col-
umbia, Miss Portia Brownell, pre-
sented the commission to the Red
Cross as her part in assisting the
work.

In the full field uniform of the ov-
erseas soldier Maynard Craig entered
into one of the most difficult parts
of the pageant and his work was one
of its features. His questions of what
the Red Cross was doing in peace
were answered by the Red Cross of
Peace in a series of scenes which
were of intense realism.

WHERE WILSON MAY LIVE AFTER MARCH 4

The house purchased by Mrs. Tumulty, which, it is believed, will become the Wilson home.

Gossip at Washington has it that when President and Mrs. Wilson
leave the White House March they will move into the above house,
located at Twentieth street and Kalorama road, Washington. The house,
which formerly was the home of Alexander Shepherd, first governor of
the District of Columbia, was purchased recently by Mrs. Joseph
Tumulty, wife of Wilson's secretary. Rumors at the time were that the
house had been bought for the president, but that the president did not
care to announce his future plans at the time.

The tooth brush drill was one of
the features of the pageant. Miss An-
na Bell's school tots filed on the stage
from the audience and recited cum-
ing verses while tooth brushes were
wielded. The Nursing Service was a
full stage scene that was startling in
its reality.

The Home Service Department was
depicted next with Miss Mary Rob-
inson and Miss Mary Alice Cullhan in-
terviewing the soldier, wife and child;
the blind soldier; and other people
who came within this branch of the
service.

Another scene followed that gave
the Disaster Service opportunity to
show its duty. Within a group of
tornado victims lying prostrate the
nurses and doctors came on the scene
and administered aid.

Little ragged waifs formed the
story in picture of the Junior Red
Cross while a happy family, with
Mrs. Clarence Baer the mother, con-
trasted. The appearance on the
scene of the Junior Red Cross spirit,
typified by little girls in costume, put
an end to all suffering. Mrs. A. J.
Burgert sang a sweet lullaby.

A beautiful tableau "The Greatest
Mother of All" with all the characters
of the pageant and Miss Helen Du-
rante as "Community" taken part
formed a fitting ending while the au-
dience stood and sang "America."
Two soldiers sounded taps.

Mrs. Selsor Fenner was a perfect
accompanist for the pageant. Her
program was:

- Battle Hymn of the Republic.
- Lest We Forget DeKoven
- Keep the Home Fires Burning.
- Descriptive Music McDowell
- Lullaby Mendelssohn
- God of Our Fathers DeKoven
- Waltz Selected
- March Selected
- America the Beautiful.

Mrs. Fenner also accompanied the
quartet composed of Mrs. Amy Hud-
son, Mrs. A. J. Burgert, Mr. Howard
Allen and Mr. Rankin Paul.

In a short talk before the presenta-
tion of the pageant Mr. T. H. Craig
Sr., Chairman of the Fayette County
Red Cross Chapter, asked the co-op-
eration of the people in the Fourth
Red Cross Enrollment.

Miss Edith Gardner, Miss Mary
Robinson and Mrs. W. H. Lipsett
share equally in honors for the suc-
cessful presentation of the pageant.
It was carried out under their direc-
tion.

Off Summer Pastures

Your animals are coming off summer pastures
and going on dry feed. It's a big change. Out in
the succulent pastures. Nature supplies the tonics
and laxatives to keep animals in condition.

—But unless you supply these tonics and laxa-

to get full returns from your hay, grain and fodder.
Besides, your animals are apt to get "off feed" and
out of fix.

When Homer Self realized that
there was little hope for him escap-

was drawn about him for forgery, he
wrote a letter to one of the prosecut-

Suspecting the ruse Prosecutor Har-

on the witness stand, had him write a
number of misspelled words included
in the letter, and the handwriting, cou-
pled with the inaccurate spelling, were
exactly identical to that in the letter,
so that the authorship of the letter
was established beyond doubt and be-
fore Self suspected what the Prosecut-

FILE AFFIDAVIT CHARGING SALE OF INTOXICANTS

State and Federal Agents
Pay Visit to This City and
Get Busy At Once.

Proprietor of French Restaurant First To Face
Charges Filed.

Following a visit to this city Friday of one state and one federal prohibition agent, one affidavit was filed charging the sale of intoxicating liquors and it is said several other indictments probably will be filed by the federal authorities which may involve a number of local men on charges of dealing in intoxicants contrary to the state and federal prohibition laws.

The one affidavit was filed by Chief D. L. Moore following a search of the

French Restaurant on South Fayette street, and seizure of two cartons of Jamaica ginger and other intoxicants and the affidavit was against the proprietor of the place, Jules Marlier, charging him with keeping a place where intoxicants were sold.

The search followed the issuance of a search warrant signed by William H. Chinn, State Prohibition Enforcement agent, who, with the federal agent and assisted by the police, made the search and seized the Jamaica ginger and other intoxicants. Marlier furnished bond in the sum of \$300 for his appearance for trial on Tuesday morning, November 23, at nine o'clock. He is represented by J. D. Post.

According to Mayor Dahl he has a collection of Jamaica ginger bottles alleged to have come from Marlier's place of business, and some of these bottles contain insufficient revenue while the revenue stamps on others are not cancelled.

It is indicated that the war on sellers of intoxicants, whether in the shape of extracts, "corn juice," "raisin jack" or what-not will be pushed relentlessly in this city, and that the next charges filed may come from the federal authorities and the cases carried at once to the Federal Court, where, upon conviction, the fine is very heavy.

PALACE OF GOLD CAUSES INQUIRY IN ARGENTINA

(By Associated Press)
Buenos Aires, (By Mail)—Argentina has been having a graft investigation as a result of which it has been found that 5,500,000 pesos have been "unduly" disbursed by former government officials who directed payments to contractors for building the capitol here. The present government has announced its intention of bringing suits to recover the money improperly paid.

The building, a magnificent structure of classic architecture, marble facings and broad sweeps of marble steps, not unlike the capitol at Washington, is jestingly called in the newspapers "El Palacio de Oro" Spanish for "The Palace of Gold." It was begun in 1897 and was originally to have cost 10,000,000 pesos. It is not yet entirely finished and has cost 27,000,000.

Recently a committee of the National Accountancy Department completed an investigation of the expenditures of the monies paid for construction of the building and reported that 5,500,000 pesos had been "unduly" disbursed.

Buenos Aires newspapers told years ago of wagon loads of building material that went in the front door of the structure, soon after came out the back door and then disappeared. Charges were made that marble was paid for but concrete used for part of the construction, and other accusations of graft were aired. It was then that the news papers began to call it "The Palace of Gold."

ROYAL GROUNDS TO BE OCCUPIED

(By Associated Press)
Vienna, (By Mail)—The vast estates of the late Emperor Francis Joseph will be devoted to the pension fund of invalid soldiers under a decision just taken by the cabinet council. Certain castles and dwellings in this city and the nearby suburb of Baden will either be occupied by them or the fund will receive the rentals and other accretions.

Included in the arrangement are the splendid estates of Orth, Vossendorf, Maltighofen, Poeggstall, Augarten, Laxenburg, Henzendorf and many others, the decision also covering the Lainz Tiergarten, near Vienna, on which a group of some hundreds of former soldiers recently squatted.

The income of the Prater, Vienna's most famous suburban park with its numerous restaurants and amusement places, is also included. Many of the estates contain model farms and others are under rentals of much value.

The late Emperor Francis Joseph, who died in 1916 bequeathed 60,000,000 crowns from his private fortune to a fund for wounded soldiers, invalids and relatives of men killed in the war. To two daughters and one grand-daughter he bequeathed 20,000,000 crowns each, the remaining 10,000,000 crowns of his estate to be divided among several other legatees.

It has since been reported that an American-Dutch company has bought the Emperor's summer palace at Ischl, in the Tyrol, for hotel purposes. The hunting estates and lodges of the late Emperor in the Tyrol were advertised for sale in January last. Francis considered these the finest in Europe.

TOURISTS STAY OUT OF IRELAND DUE TO DISORDER

(By Associated Press)
Dublin, (By Mail).—The tourist business in Ireland has been injuriously affected by the revolutionary disorders. Tourist agents and hotel keepers are in despair. North Wales and the Isle of Man have captured the visitors who use to come to Killybegs and Glengarriff. There has been a notable absence of the usual influx of Americans.

Dublin has suffered less proportionately than other places, but Dublin's visitors did not take the risk of leaving for the provinces. There was no danger to life or limb, but the dislocation of the railway service caused by the refusal of the railway men to carry soldiers, police or munitions made the train service so uncertain that nobody could count safely on reaching or returning from any given destination within the limits of a holiday.

John had his little troubles, but he never tried to start a Ford on a frosty morning.

The Farmers' Strike

According to sensational reports coming out of Kansas City the National Farmers Union has sent out a call to local unions throughout the country urging a nation wide producers strike to combat the falling prices of farm products.

The farmers organizations are still in the formative state and it is a little difficult, at this time, to be sure of the component units of any organization carrying the name "farmers" and claiming to be nation wide in scope.

We feel certain, however, that the dependable farmers of America will take little stock in any strike proposal. That great dependable body of American citizens—the farmers—standing as the bulwark of the nation against wild radicalism is not going to be led astray by any radical strike suggestion whether it comes from within or from without their own ranks.

The strike is the most destructive force known. It is the greatest menace today of the world and no men know that better than the farmers.

The farmers of America have many reforms to urge and to bring about in American business methods regarding the handling of farm products but they know that the surest way not to bring about these reforms is to ruin or jeopardize their real power.

A strike always means confusion and loss to all parties concerned and a strike of farmers would be so tremendous in the havoc it would bring that it is unthinkable.

The real farmers' organizations throughout the country are repudiating affiliation with the Kansas City organization and asserting their opposition to any strike movement.

The American farmers have been the most powerful opponents of the strike plan and they may be depended upon now to frown down any movement which will line them up with the disturbers of society. They are, as they always have been, working for good and not for harm.

Loose Methods

Facts developed by the Walsh congressional committee investigating the affairs of the United States Shipping Board are startling, to say the least of them.

It seems inconceivable that the tremendous activities of the shipping board, involving, as they did, the expenditure of scores of millions of dollars contributed and paid by a patriotic people, should have been conducted with no complete record and with an entire absence of business methods. That the men were honest is no excuse. The people are entitled to a clear accounting for their millions which were spent.

We all know during the war that money was being recklessly spent and we were content to wait for the final account. Most of the people would have been satisfied with an accounting and would not have quibbled over expenditures.

The disclosures by the committee explain why government control of public utilities was not a realization of a dream of Utopia.

Clean The Sidewalks

The heavy snow which covered the ground and the sidewalks of the city to a depth of some six or seven inches during several days last passed, reminds us of some things aside from the fact that snow has come and the B. & O. railroad crossings on South Fayette and South Main streets are not yet repaired or replaced with new ones.

It reminds us too that we, most of us here in town, have been thoughtless of our neighbors and fellow citizens and neglectful of a very plain duty. In fact we have been violating a city ordinance of our own making.

It would be so easy to have all the sidewalks of the city cleaned—in business sections and residence sections alike—if each business man and householder would make it his first and most important duty to get out in the morning after the snow has fallen and clean off the sidewalks.

But aside from any ordinance if we would each one of us wield the snow shovel for about thirty minutes we would perform a great service for our fellow citizens and make our premises tidy looking. It is bad enough to wade to work through deep snow on the sidewalks but the slush and water when the snow begins to melt is far worse. It is unpleasant and a menace to health.

POETRY FOR TODAY

IT'S SERVICE THAT MEASURES SUCCESS

It isn't the cut of the clothes that you wear,
Nor the stuff out of which they are made

Though chosen with taste and fastidious care,
And it isn't the price that you paid;
It isn't the size of your pile in the bank,

Nor the number of acres you own,
It isn't a question of prestige or rank,
Nor of sinew, and muscle and bone;
It isn't the servants that come at your call,

It isn't the things you possess,
Where many, or little—or nothing at all,
It's service that measures success.

It isn't a question of name, or of length

Of an ancestral pedigree,
Nor a question of mental vigor and strength,

Nor a question of social degree;
It isn't a question of city or town,
Nor a question of doctrine or creed,
It isn't a question of fame or renown,
Nor a question of valorous deed;
But he who makes somebody happy each day,

And he who gives heed to distress,
Will find satisfaction the richest of pay,

For its service that measures success.

TALK OF SPLIT IN G. O. P. RANKS IS EXAGGERATED SAYS SULLIVAN

If Cleavage Does Come it Will Be Over Foreign Relations

Harding Will Enjoy Such Unique Position As President

It Is Likely Both Parties Will Make Effort to Give An Era Of Harmony.

BY MARK SULLIVAN
(Copyright 1920)

Washington, November 20.—It is commonly said that Senator Harding, when he returns from Panama to America and political actualities two weeks from today, will return to the menace of a divided party. It is said that a split is already developing among the Republican senators and in the party as a whole.

Much more is made of this than the facts warrant. Fighting is more dramatic and interesting than harmony, and the hint of a fight gets into the headlines when a more obvious and vastly more important condition of harmony gets no attention.

It is true that the materials for a split and a fight are inherent in the situation, though not exactly in the form in which it is most frequently discussed. People commonly speak of it as a division along the old lines of progressive versus reactionary. They picture it with the reactionaries in control under the leadership of Harding, and the Progressive senators and leaders of the insurgent element in the party conducting an assault.

But the fact is that so far as the materials for a split exist, they do not line up that way. It is not a reassembling of forces along the lines of the old progressive and reactionary fight. It is conceivable that that may come later. The economic conditions that are plainly ahead of us are of the kind that give rise to radical movements. But that particular rift is not as yet in sight. Senator Harding's friends claim that his talents as a harmonizer will prevent it; they claim, further, that however correct the common assumption may be that Mr. Harding in the past has always stood with the conservatives, his conception of his new responsibilities will lead him to be sufficiently sympathetic to progressives to prevent a row.

Harding Sympathetic to Labor

There is some reason to justify this hope on the part of those who hold it.

For example, the newspapers recently have given wide circulation and much emphasis to the rumor that the Republican administration is going to either lead, or at least give sympathetic support to, a fight against labor on the issue of the open shop. There is nothing in this. Economic conditions in the near future may make it difficult for labor to maintain its present strength in the matter of collective bargaining. Positions early won by labor during five years when the demand for labor succeeded the supply may not be easy to hold during a period of reversed conditions, when demand for labor is going to be less than the supply. Whether the unions can hold the position in which they are now entrenched remains to be seen.

That however, is a purely economic issue. So far as it is to be affected by politics, the plain fact is that Senator Harding has again and again expressed himself as sympathetic to collective bargaining, and has expressed even more extreme theories in the field of what is called the rights of labor. The further plain fact is that the Republican platform, this year contained the following plank:

"We recognize the justice of collective bargaining as a means of promoting good will, establishing closer and more harmonious relations between employers and employees and realizing the true ends of industrial justice."

A New G. O. P. Cleavage

No, the threatened rift in the Republican party, so far as it can be said that such a threat now exists, is not along the old lines of progressive versus reactionary; it is a new cleavage altogether.

On one side of this new cleavage old conservatives like Elihu Root are lined up with old progressives like Mr. Hoover; and against them old conservatives like Senator Knox are lined up with old progressives like Senator Johnson. The subject of the new cleavage, if it should go so far as to be called a cleavage is our foreign relations; or, to put it in a phrase more narrow and more easily

understood, although less accurate, the League of Nations.

The larger number of Republican Senators and leaders, including such men as Elihu Root, Senator Smoot, Senator Hale, Senator Colt, Herbert Hoover, former President Taft and others, believe strongly in an association of nations approximating the League of Nations in the purpose of reducing armaments and maintaining peace, although differing from it materially in form. A smaller group of Republican Senators in the East oppose them. But both the quantity and the degree of this opposition is exaggerated.

For example Senator Lapham is commonly and correctly listed as an "irreconcilable." It is true that all his public activity in regard to the League of Nations has been an effort to beat it, but it is also true that Senator Borah has always had in mind an alternative which he regards as better adapted to maintaining peace and which does not differ too materially from alternative in the mind of irreconcilables who are irreconcilable solely.

Weak Position of the Extremists

After these have been eliminated, however, there does remain a number or three or four who are irreconcilable and nothing more. They are "aggrainers" and do not accept any responsibility for an affirmative or constructive alternative to the League of Nations. Their position is either that they believe that war can't be prevented and that no step toward preventing it is desirable, or else that their political position in regard to their own constituencies is such that their most expedient course is opposition.

Whether there are enough of these extreme irreconcilables to make headway against the larger number who believe in an association of nations remains to be seen. The greater likelihood is that this small group will turn out to be so weak a position that they will not feel encouraged to make much of a fight.

The reason for this likelihood lies in what is the most obvious and important of the conditions that Senator Harding will find in this country when he makes a survey of things for himself. This condition is the wish for harmony, the dislike for contentiousness. Whenever so large a group of people, and so large a number of differing factions, unite, as they did unite, in the election of Harding, it is a sign of a general unanimity of purpose and of mood. It means a most unusual amount of agreement upon the part of the public as to what it wants. The public mood which expressed itself in this way is going to be easily irritated by any leaders who try to capitalize contention.

Universal Disposition Toward Harmony

This disposition toward harmony characterizes not only the Republicans, but the Democrats as well. Nothing is more apparent in Washington than the disposition of the Democrats to aid in what is to be done rather than to fall in with the notion of obstructing merely because obstruction is the traditional function of the opposition party.

Equal suffrage for women means that they must not wear their hats when in his courtroom, E. P. Aring, Justice of the Peace, declared when he fined two women \$5 each for contempt of Court when they refused to remove their hats. The women paid.

When the Justice called the Court to order he said: "Everybody will please remove their hats." Mrs. Oscar McCann and Mrs. Frederick Ritter failed to do so. The Court hesitated a moment, but the two women continued to wear their hats.

"Five dollars and costs for contempt of Court," said the Justice. "If women can have equal suffrage with men they can also remove their hats in my courtroom."

"Science is systematic knowledge—art is knowledge made efficient by skill."

That has been made the slogan of the Ohio federation's art department head Mrs. John Mackee, Springfield. She asks her fellow Ohio clubwomen, individually and as clubs, to co-operate with her in using the best means possible in carrying out the following recommendations:

1. That a department of art be created by the national government. America is young and undeveloped when it comes to natural art.

2. That the state create an art commission in Ohio, the duty of which will be to encourage the establishing of more industrial art schools so that there can be no lack of trained workers in the silk, rug and pottery factories or in other industries where trained hands are needed.

If interested in art slides, get in touch with Mrs. Mackee who has the booking of two sets, "Art in the Home," for December, and "Color and Furniture," for March. She also has in embryo, plans for a new set of slides on some phase of civic art. The state art committee for 1921-22, of which Mrs. MacKee is the chairman.

County Federations
Mrs. Hermine Z. Hanson, Akron, vice president of the Northeast district announces that three of the twelve counties in her district have county federations which, she says, accomplish much better results, because of the wider field, than the city federation.

Ashtabula county, which is in the Northeast district, has the distinction of being the first county in the state thus federated. This federation meets in May and October, discussing civic matters and, in fact all questions pertaining to city and country life. Mrs. Hanson wants discussions on the value of city and county federations to be come a part of the programs of all the clubs, so that if called upon to act relative to county federations they will know all about the plan. Federation means greater responsibility and influence," Mrs. Hanson declares.

Ohio Federation Notes.
Vice presidents of all the federation districts in the state ask that every club president forward club programs to the vice president of the district in which she may be a member. This is a little detail that ought not be neglected.

Women who believe they have had more than their share of trouble with domestic help will welcome newspaper announcements that many ex-servants are now seeking jobs. This is reported by leading employment agencies. Two of them give out the state that there had been an increase of 300 percent in the number of women now looking for domestic work. The President of one of the New York agencies says that he cannot place in domestic employment all of the increased number of applicants on his lists. This is partly due to the fact that many people are unable to pay the high wages asked and are doing without help.

Many women who left domestic work during the war for other jobs realize that with the change back to conditions more nearly normal these jobs are either no longer open to them or that they are not as desirable as work in the home.

High priced board, often poor and not nourishing, with rooms often not well heated and conveniences not half as good as found in the private home, makes many a sensible woman realize that "jobs" are not always as profitable as they seem.

Taken as a whole the job frequently when expenses are figured, is found less paying than the position in the home. Added to this are the inducements of the extra comfort and better food of the home and the hours of freedom and chance to get out that is possible in domestic work.

Many women who were eager to give up domestic work and have tried out other jobs are realizing these things and going back to the home.

The House Immigration Committee

soon will take up the "very important problem" connected with Spanish and Portuguese marriages by proxy, which "give to women in those countries the status of wives of resident aliens in the United States." Chairman Albert Johnson stated on arrival with four other committeemen at Ellis Island today.

No sooner have we gotten rid of the troublesome practice of the Japanese of marrying by photograph, before we must tackle this equally vexatious problem of marrying by proxy in Spain and Portugal," said Mr. Johnson.

Chairman Johnson explained that the Governments of the two European countries now recognize as legal a marriage performed with an attorney representing the bride or groom. When the woman later comes to the United States as the wife of an alien residing here she is exempted from a number of the selective tests of the immigration laws.

Frank B. Mr. Logan's family connection in this city share in the interest of his trip as told in a letter written to "The Republican Herald" of Waverly, Ohio.

This was the bloodiest battle of the war, for in the space of four or five hours, six thousand confederates were killed and three thousands Yanks.

Concluding his letter Mr. Logan says: "I left Mr. King after telling him that I was from the north; that my grandfather, Captain Logan, was killed in this battle and that his body was never found. 'No doubt,' he said, 'your grandfather was thrown in one of these trenches with hundreds of other Union boys, as I saw with my own eyes.'"

RED CROSS BANNER FOR EVERY HOME

A Red Cross banner for every home in the city and county is either in the hands of solicitors, at Red Cross Headquarters, or already displayed in the windows of homes.

The little paper banner, similar to those used during the war except the date "1921" appears upon it, is given free to all who enroll in the Red Cross and the demand for them has been heavy.

And every member proudly displays the banner which serves a two-fold purpose—it prevents others canvassing for membership and tells the world the home is enrolled in the world's greatest organization of mercy.

The annual membership is \$1.00 per person, half of which is retained in this county for local work. Contributing membership fee is \$5.00 and \$4.00 of the amount remains for local work; sustaining memberships are \$10. and \$8.00 of the amount remains in Fayette county. Life memberships are \$50.00 and Patron memberships \$100.

ESTIMATE 1000 MEMBERSHIP IN FIRST TEN DAYS

Chairman of the Fayette county Red Cross Chapter, T. H. Craig Sr., estimated Saturday morning that from reports coming in during the past week there were probably one thousand people enrolled in the Red Cross in Fayette county during the first ten days of the Fourth Enrollment.

With the four days of the enrollment remaining it was stated that much hard work must be done to bring the membership total up to even a conservative figure and that unless the people rallied to the call more earnestly enrollment is not likely to reach the number promised.

Encouraging news for the enrollment was received Saturday when it was learned that the primary room at the Wilson School on the Greenfield pike is claiming the honor of being the first of the consolidated school rooms to "go over the top." The honor flag has been hung up. Mrs. Martha Minnick Vincent is the teacher.

The Open Door to Health

If you are not enjoying health during these strenuous times, it is your own fault, to a large extent.

CHIROPRACTIC IS THE OPEN DOOR TO HEALTH.

Hundreds of thousands of people, who for years have been suffering pain, have found this to be true. *Why Not You?*

Quit fooling with drugs, make up your mind to be Happy and Healthy. It is all up to you. This is an age of progress and just as surely as have automobiles, aeroplanes, telephones, etc., come to stay, so surely has CHIROPRACTIC, THE DRUGLESS HEALTH SCIENCE, COME TO STAY.

Health is within the reach of everyone.

Throw all prejudice to the winds and investigate, sincerely and thoroughly, the principles of Chiropractic. Having once investigated, you will be convinced that it is indeed what it says it is—and then you will consult a Chiropractor.

The Chiropractor is at your service. He will give you a spinal analysis, will, with his bare hands alone, locate the cause of your trouble and adjust it.

THEN you will be Happy and Healthy. Lose no time—do it now. You owe it to yourself, to your family and to your friends.

ARE CONFIDENT BODIES WILL BE FOUND IN LAKE

Coast Guards Unable to Reach Wreckage of Missing Plane

(By Associated Press)
Muskegon, Mich., November 20.—White Lake coast guards and officers of the Great Lakes Naval Training Station were confident today that search of the wreckage of the H. S. L. L. would reveal the bodies of three members of the crew who presumably perished when the plane was wrecked.

The high sea prohibited search last night although coast guards reached a point a short distance from the bar where the wreckage was discovered yesterday. A board washed ashore from the wreckage had clothing nailed to it.

WOMAN EDITOR MAKES COMPLAINT

Olive B. Mackin, editress of the Plain City Advocate, tells a real "skunk" story.
"It is under trying circumstances that the Advocate is issued this week and the odor from the copy you receive may be anything but to your liking. Just before the noon hour Wednesday the office dog killed a skunk under the floor and it was with difficulty that the force staid on the job until the edition was printed. Here's hoping that it won't happen again, but we have been informed that where there is one, there is usually seven, so we may decide to change our occupation from printing to trapping."

DISPUTE OVER THEATER SALES

Former Local Man Involved in Two Court Actions

The sale of the Majestic and Princess theatres by Manager Stanley Lawwill to A. J. Thompson has been succeeded by unpleasant and regrettable features. As announced elsewhere Mr. Lawwill has entered suit against Mr. Thompson in the common pleas court in which he asks judgment for \$780, being unpaid balance of the \$700 paid for the paraphernalia of the two theatres.

It is also said that on a recent evening, after the closing of the theatres for the night, and during the absence of Mr. Thompson, that Mr. Lawwill removed certain articles from both houses; claiming that these articles were not covered in the article of agreement for the sale of the theatres.

Following this action Mr. Thompson swore out an affidavit charging Mr. Lawwill with robbery.

LOWER GASOLINE IS IN PROSPECT

Now comes the good news, that there may be a reduction in the price of gasoline for the northern states, since news comes from New Orleans

that there has been a reduction of 10 per gallon on wagon gasoline in the states of Louisiana, Tennessee and Arkansas by the Standard Oil Co. This

is done it is said, in assistance of bringing prices down on all commodities.

The retail price of gas in those

states beginning this week is 28½ cents. A statement by the Standard Oil Co. reads:

"While there has been no material release from any of the conditions which brought the rise in the price of petroleum products, the Standard Oil Co., of Louisiana believes that the process of readjustment now under way in the business world must eventually contrive to lower costs to producing and refining oil."

"The Standard Oil Co. of Louisiana believes that this movement to ward a restoration of what is properly considered normal prices shall be aided by the oil industry."

PLAYING HERE AGAIN AFTER LONG ABSENCE

Washington High Anticipated Hard Battle With Ross County Gridders.

For the first time since 1917 this city was invaded Saturday by a football team wearing the colors of Chillicothe High School. Almost two teams strong they came in about noon ready to do battle with the husky defenders of Washington High at East End field.

Against the ravages of continuous thawing the snow had retreated from almost every corner of the field but had left the gridiron wet and slippery.

The Washington team anticipated a hard game with the warriors from the old capital.

GREAT YALE BOWL IS ENLARGED FOR HARVARD-YALE BATTLE

An airplane view of the Yale bowl at New Haven. Note the piles of lumber around the edge, with which the added seats are to be built.

More persons than many thriving cities boast of will congregate in the massive concrete Yale "bowl" at New Haven, Conn., Nov. 20 to witness the annual gridiron contest between the Yale and Harvard eleven. Re-

gardless of the success of these teams against other colleges during the football season, the game is one of the biggest events of the sport because of the intense rivalry between the schools. The officials are planning wooden ad-

ditions to the top rim of the bowl and along the bottom part to take care of the crowd this season. Under the new arrangement 73,000 persons will see the game. Over 100,000 requests for seats have been received by the athletic officials.

CHALLENGE GOES TO CIRCLEVILLE FOR THIRD GAME

Will Decide Football Championship in This Part of State If Played.

Washington High Will Play Anywhere and Any Time Before December 20th.

There was sent from Washington High School Thursday afternoon to Everetts High of Circleville a challenge to play a post-season game of football, if the weather permits, on a neutral field and with absolutely neutral bona-fide officials in charge.

On the afternoon of October 30th in this city Circleville was defeated by Washington High 19 to 0. Until that time the Circleville team had not been defeated this year. On November 12th, in a return game at Circleville, Washington High suffered its first defeat of the season, 12 to 6.

Both teams are claimants of the South-Central Ohio football championship. The challenge reads as follows:

"To the Everetts High School Circleville, Ohio.

"In view of the fact that both Everetts High School and Washington High School Football Teams are claiming the honor of this section of Ohio and, also, that each of these teams has an unbroken record of straight victories over the same opponents, the Washington High School does hereby challenge the Everetts High School to play a post-season game of foot ball within ten days after the close of the football season, if the weather permits, on a neutral field and with absolutely neutral and bona-fide officials in charge. Should the weather be unfavorable this game to be played as early as the weather permits before December 20, officials and day of game to be determined by the representatives of each school, if this challenge be accepted by the Everetts School."

"Captain, Thomas Rogers, Football Team: Ernest Davidson, Samuel Nelson, George Lamb, Leroy Thompson, Warren H. Baker, Heber Deere, Wilbur Perill, John W. Deen, Carroll E. Flee, Loren Stewart.

"This challenge is approved by: Superintendent, Wm. McClain; Principal, O. K. Probasco; Coach, Charles D. Moorehead; President Board of Education, F. M. Rothrock.

Unanimously passed by the Washington High School.

Local fans severely criticised in the last game with Circleville Referee Bales' decisions on three close plays and feel that Washington High deserves another chance to wipe out the sting of the first defeat in two years and at the same time decide the championship of this section of the state.

Greenfield is being prominently mentioned as the place to play off the championship game but Washington High is willing to play anywhere and at any time before the 20th day of December.

The game at Circleville last Friday drew over a thousand people and it is estimated by local fans that close to 2000 fans would attend a post-season game of this magnitude.

The answer of the Everetts High officials and Coach Davis is being anxiously awaited by the local school authorities and by the hundreds of loyal backers of the Washington team.

COURT SCHEDULE OF HIGH SCHOOL

Local High School Opens Basket Ball Season With Athens.

First rumors of the high school basket ball season have been heard with the completion of the schedule for 1921 by Washington High officials.

A total of ten games has been scheduled and the season will include the South-Central Ohio tournament making probably thirteen or fourteen games in all.

It is out of the ordinary for Washington to tackle an opponent like Athens High in the opening game of the season, but this will be done. The experience gained by such a contest, say basket ball authorities, will be of great value to the players and will make the remaining games on the schedule appear easy in comparison when viewed from a psychological standpoint.

Six of the ten games are on the home floor and the season ends in a grand finish with the last four games on the local gymnasium. The schedule follows:

January 7—Athens at Athens.
 January 14—Greenfield at Greenfield.
 January 21—Hillsboro at Washington.
 January 28—Wilmington at Wilmington.
 February 4—Chillicothe at Washington.
 February 11—South Salem at South Salem.
 February 18—Greenfield Tournament.
 February 25—Wilmington at Washington.
 March 4—Greenfield at Washington.
 March 11—Circleville at Washington.
 March 18—Frankfort at Washington.
